## **The Benefits of Dental Implants**

- Natural looking
- Can't decay
- Feels natural
- Stability
- Function – comfortable when eating
- High success rate – 90-95%
- Preserves other teeth
- Strength
- Prevents hyper-eruption
- Preserves bone
- Easier to clean than a bridge
- Lightweight
- Better biting pressure
- More comfortable than a denture
- Cost effective – only one tooth, not three as for bridge
- Bridge may need to be replaced, but not the implant
- Less sensitive
- Versatile – can serve multi-function in future if needed – medical reasons
- Regain lost taste (no metal on palate)
- Not removable
- Increases self-esteem (have a full mouth of teeth)
- Status – state-of-the-art treatment
- Preserve facial structure
- Better speech
- Youthful appearance
